Recombinant Humanized Anti-AXL Antibody (Ab4)

Cat. No: HPAB-1618LY

PRODUCT INFORMATION

Product Overview
This product is antibody recognizes AXL. The antibody Ab4 immunoassay techniques such as: ELISA.

Host
Humanized

Specificity
Human

Target
AXL

Antibody Isotype
IgG

Derivation
Mouse

Species Reactivity
Human

Clone
Ab4

Purity
> 95% Purity determined by SDS-PAGE.

Purification
95% pure by SDS-PAGE

Format
Liquid

Buffer
PBS, pH 7.4

Storage

ANTIGEN INFORMATION

Introduction
The protein encoded by this gene is a member of the Tyro3-Axl-Mer (TAM) receptor tyrosine kinase subfamily. The encoded protein possesses an extracellular domain which is composed of two immunoglobulin-like motifs at the N-terminal, followed by two fibronectin type-III motifs. It transduces signals from the extracellular matrix into the cytoplasm by binding to the vitamin K-dependent protein growth arrest-specific 6 (Gas6). This gene may be involved in several cellular functions including growth, migration, aggregation and anti-inflammation in multiple cell types. Alternative splicing results in multiple transcript variants of this gene. [provided by RefSeq, Jul 2013]

Alternative Names
AXL Receptor Tyrosine Kinase; AXL Oncogene; EC 2.7.10.1; UFO; Tyrosine-Protein Kinase Receptor UFO; AXL Transforming Sequence/Gene;

Gene ID
558

UniProt ID
P30530
